## WELCOME...

to our August edition of Flourish News. Our monthly email update has just turned one year old and we wish to thank subscribers for their support of the store in the last 12 months. There are many of you who especially pop in just after our emails arrive in your inbox and your feedback tells us you are enjoying seeing what is new or interesting in the shop.

This issue we have a bit of a focus on red, warm and spicy, with this being the last month of Winter. There are some new furniture pieces, ottomans and lamps to add some zest to your lounge room as well as spicy Asian cookbooks to warm the cockles of your heart...some recipes even using cockles! And be prepared for loads of new products entering the store in the lead up to Christmas across all our ranges, we're going to have an exciting few months! Enjoy the read....

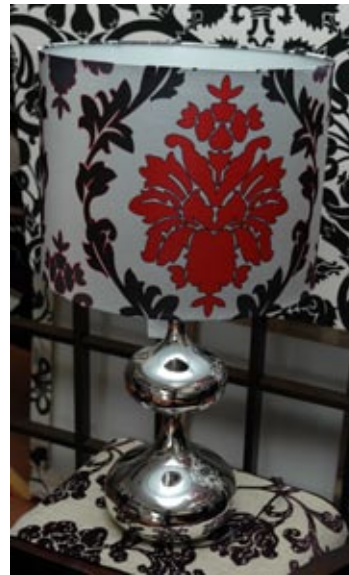

## NEW INDUSTRIAL FURNITURE

The ever changing furniture display in Flourish is currently filled with new designs from our industrial furniture collection.

New to the range is our glass topped coffee tables with a lid so you can store your magazines or display a collection of found objects (\$375), a 3-door locker (\$475) and a steel umbrella stand (\$129). As featured in previous editions of the newsletter, we also have sets of drawers in various sizes. The entire collection is available in red or white although what we have in stock at any one time can vary. You can always place an order with one of our staff if you like.

## AVALON LAMPS

Regular customers of Flourish would be aware of the unique lighting options we continue to stock. New in store is the gorgeous and bold Avalon Lamp (\$325). With its silver, red and black wallpaper inspired design, be sure to make this one a centrepiece rather than hidden away in the corner of a room.

## NEW OTTOMAN DESIGNS

As long as our ottomans continue to roll out the door, we'll keep bringing you new colours and designs. Available in two sizes, you can select from browns and creams, or red, blue and cream. Starting from \$250, you'll find them a simple way to add a touch of the exotic to your decorating, as well as just being great to put your feet up on!
